

Using the Black Cat UZB Radio.

Home seer:

1. Plug the UZB into a spare COM Port.
2. Start the Homeseer program.
3. On the Homeseer screen go to Plug-INS>>Z-Wave>> Manage >>Controller Management.

4. Open Z-Wave Interfaces, Select Sigma Designs UZB. If possible use COM3 Serial Port, otherwise HS will show available Ports.

5. Add New Interface >> Click to Enable. You will now have various Drop Down Options available.

Use these options to Include—Exclude-Scan and perform other System Actions.
